

# THE DIFFERENCE IS IN THE DETAILS

## Leviton's P1000 Series Power Distribution Units

Leviton's P1000 Series Rack PDUs are the ideal solution for data centers, computer rooms, and other environments that require "always on" power.

This cross-reference chart will help you easily find the right P1000 PDU for your specific power needs. This sheet provides you with the Leviton part numbers that correspond with similar products offered by APC. In some cases, Leviton provides PDU configurations that are not available from APC.

The P1000 product line complements Leviton's line of 4505 and 5500 series rack-mounted PDUs as well as our intelligent PDUs.

### CROSS REFERENCE CHART - UNMETERED PDU'S: \*APC® TO LEVITON

APC PDU Part #	Recommended Leviton PDU Part #	Nominal Input Voltage	Max Rated Amps	Max "Derated" Amps	Configuration	Plug Type	APC: # of Outlets	Leviton: # of Outlets	APC: Overcurrent Protection?	Leviton: Overcurrent Protection?

### P1000 SERIES FEATURES:

#### Input/Output Versatility\*\*

- Voltage: 120V, 208V
- Amperage: 15A, 20A, 30A
- Outlet Receptacles: 5-15R, 5-20R, C13
- Input Plug Types: 5-15P, 5-20P, L5-20P, L5-30P, L6-20P, L6-30P
- Number of outlets: 10, 12, 16, 24

\*\* Varies by model

#### Enhanced Protection

- LED indicators for "Power On" and "Polarity/Ground OK"
- Grounding connection point on all models
- Overload protection with easy to reset circuit breakers
- Dual pole breakers on 208V models for added safety
- 30A units feature UL489 rated circuit breakers

#### Robust Design

- 18AWG cold-rolled steel enclosures
- Durable input cord strain relief
- 3-Year Product Warranty
